honey, i know i'm not a young man anymore
but aside from the time spent on my blog and my novel
i will make him a coat of my own flesh if need be
when he eats us out of house and home, you will ebay your vintage wallet to pay the bills?
when it takes 2 hours to feed him a chick pea, you will guide his fork?
i will chew his food and spit it into his mouth
when he shits his pants you will be there?
i will wipe him with my own shirt
I will tirelessly assist in all the duties of a parent
you will not tax me of my strength with your sexual impulses?
i will put my dick on a shelf next to my childhood toys
dearest, I am going to that gadget shop to buy a two way radio to place by his crib so we may never sleep in peace again
i will love you till the skin falls from my bones

you thought the violent times were a fading nightmare! That's why you elected myself, Chairman Sound, and Mr. MoD here as the new co-chairs of Grave City. A partnership of peace! But you were wrong! Madmen who insist on looking at the world through the funnel vision of personal want over community health continue to fester and attack our way of life. but we do not stand for hate and we will not stand for this!
you thought, when we chased businessman Albert Groin out of town it was the end of privatization of fundamental rights such as clean drinking water! And that is why you voted to change our fair city's name from Groin to Grave! Grave, a symbol of the death of personal greed over community need. Here a new culture of giving can be born. but you were wrong! Grave is the symbol of the death of our fellow citizens at the hands of religious nutjob racist idiots! but we do not stand for violence and we will not stand for this!!
you thought we could cut taxes AND help you survive during a financial disaster, and you were wrong! But we will anyway! We are going to throw Billions at the problem by borrowing high interest rate cash from the devious far away city of Delta 6! we are launching a committee to oversee job creation! A committee to oversee expanding education! A committee to oversee tolerance of others, and a committee to learn to turn the inate violence inside each and every one of us to a positive force! Every committee will supervise a selection of programs we will not stand for the regression of humanity and we will not stand for this!! ok? ok? ok?
shall I get these Committees together sir?

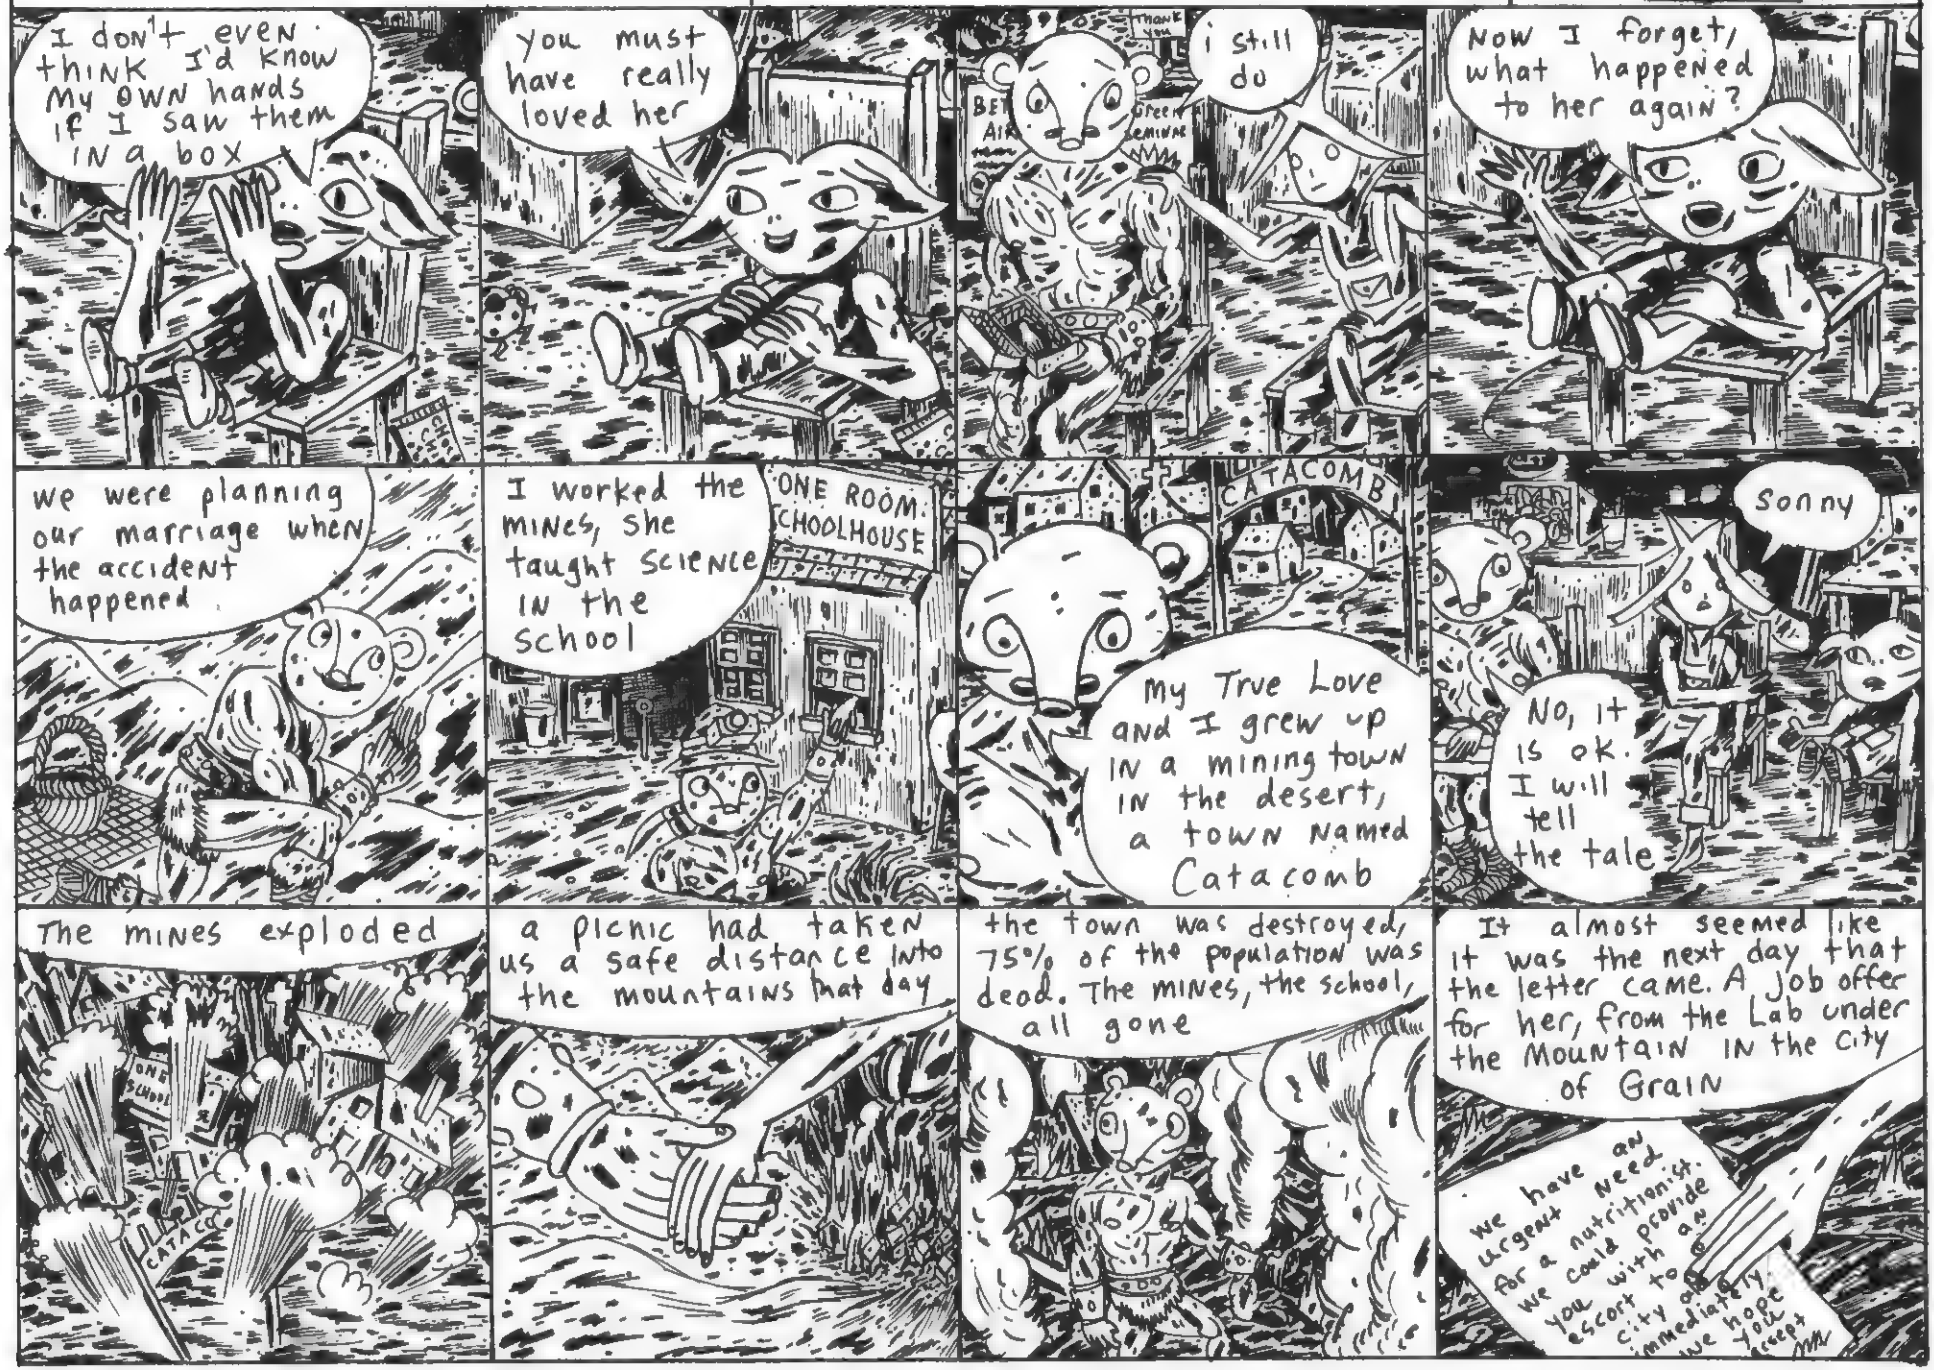
3.2.11



I don't even think I'd know My own hands if I saw them in a box
you must have really loved her
i still do
Now I forget, what happened to her again?
we were planning our marriage when the accident happened
I worked the mines, she taught Science in the school
ONE ROOM SCHOOLHOUSE
CATACOMB
My True Love and I grew up in a mining town in the desert, a town named Catacomb
Sonny
NO, it is ok. I will tell the tale
The mines exploded
a picnic had taken us a safe distance into the mountains that day
the town was destroyed, 75% of the population was dead. The mines, the school, all gone
It almost seemed like it was the next day that the letter came. A job offer for her, from the Lab under the Mountain in the City of Grain
We have an urgent need for a nutritionist. we could provide you with an escort to city immediately. we hope you accept

we were broke and jobless. Our life and home destroyed. She mailed her letter of acceptance right away.

...had only two days passed before the cart arrived for her?

the plan was simple, they would return in 4 months to get me, Meanwhile I would help bury Catacomb's dead

but the cart never returned

into the desert

I waited 2 more weeks before setting out on my own with little more than an old map and some water and bread

but the city eluded me

after a month I could go no further

down to business. we'll start out easy. On what date did Bruce Lee die?

ok, name the comic artist who drew super heroes for both Marvel and DC before moving on to more independent self expressive narrative work. 6 of the letters in his name occur twice, half the time consecutively, plus a V, an M, a U an H and an E

just a reminder, you cannot use Cell phones, implants, telepathy, third eyes, ESP, ESPN or any sort of chicken bone spells to assist in finding the answer

On what date did Bruce Lee die?
